ABOUT ME:-

I'm a front-end developer skilled in HTML5, CSS, JavaScript, and React.js, passionate about design and problem-solving. Currently expanding into backend development, I'm eager to stay ahead by learning emerging technologies and becoming a full-stack developer.

SKILLS:-

- **Programming :** HTML, CSS, JAVASCRIPT, REACT JS,
 - **Frameworks :** TAILWIND CSS, BOOTSTRAP
 - **Tools :** GIT, GIT HUB, Ms Word, MS Excel, PowerPoint & Canvas
 - **Soft Skills :** Event Management, Communication & Teamwork
-

PROJECTS:-

• NEWS WEBSITE

JULY 2023

Tech Stack: [HTML](#), [CSS](#), [JavaScript](#), [API](#)

A news website built using HTML, CSS, and JavaScript with the Fetch API dynamically pulls real-time news data from an external API. The HTML structure organizes the layout, while CSS ensures responsive and visually appealing design. JavaScript handles the API call using Fetch, retrieves the news articles, and displays them by dynamically creating and updating DOM elements. The result is a live news feed with clean presentation and smooth user interactions.

• Random GIF Generator

SEPT 2024

Tech Stack: React.js

A random GIF generator using an API in React allows users to fetch and display random GIFs dynamically. This project utilizes a GIF API, such as Giphy's API, where React handles both the user interface and API interactions. When a user clicks a button, a request is made to the API, which returns a random GIF. The GIF is then displayed on the page using React's state management to re-render the UI. This project demonstrates essential skills in handling asynchronous API calls, managing React states, and creating an interactive user experience by integrating external APIs into a React application.

EDUCATION:-

- **Bachelor of Technology in Computer Science & Engineering**
Dr. MGR Institute of Education and Research, Chennai, 600095 India.
CGPA: 7.02

June 2021 - April 2025

- **12th (Bihar Board)**

S.D.S college, paraiya, gaya, Bihar
Percentage: 67.07%

APR 2018 - FEB 2020.

- **10th (Bihar Board)**

NNHS +2 high School, Nranjanpur, Arwal, Bihar
Percentage: 54.02%

MAR 2018

PERSONAL INFORMATION:-

- **HOBBIES :** Coding and Playing cricket.
